(+62) 812-8792-8805

adriahalim05@gmail.com

Software Developer with 3+ years of experience in designing, developing, and optimizing web and mobile applications. While proficient in multiple programming languages and frameworks, there remains room for deeper engagement with the latest technologies and practices that could further streamline and enhance development processes.

PROFESSIONAL EXPERIENCE

TIMEDOOR ACADEMY.

Part - Time Programming Teacher

Jakarta, Indonesia

August 2023–Present

- Guiding Kids and Teenagers in the Realm of Programming, The initiative to teach programming to young learners using JavaScript, Python, and AI is commendable but could see strategic improvements. Focusing narrowly on specific languages might limit exposure to other essential technologies that are equally vital in developing a well-rounded programmer.
- Developing Games, Websites, and Animations, Leading students through hands-on projects from conceptualization to deployment indeed provides a practical application of programming concepts.
- Researching User Experiences and Creating Wireframes and Mockups, While the initiative to conduct UX research and instruct students in user-friendly interface design is highly valuable, the description lacks detail on the depth and method of UX research conducted.
- Conducting Skills Tests and Short Interviews with Prospective Students, Evaluating programming proficiency through skills assessments and interviews is a crucial step; however, the existing process may not fully capture a prospective student's aptitude or potential for growth.

BANGKIT ACADEMY by Google, GoTo, Traveloka.

Android Developer Cohort

Jakarta, Indonesia

September 2024–Dec 2024

- Integrating Machine Learning into Android Apps, Gaining hands-on experience with TensorFlow Lite and ML Kit to improve features such as image recognition and predictive text is commendable.
- Capstone Project Focus, While completing the Capstone Project by integrating mobile development and machine learning is an ambitious undertaking, the description could benefit from more detail regarding the specific functionalities and user benefits of the app.

PRATAMA MULIA PROPERTY

Professional Consultant

Bintaro, Indonesia

Dec 2021–July 2024

- Enhancing Real Estate Marketing Campaigns, While the execution of multi-channel marketing campaigns and the creation of promotional materials are fundamental tactics, the description suggests a routine approach that may not fully leverage the potential of each platform.
- Facilitating Real Estate Transactions, While facilitating property viewings and negotiating terms are essential roles, the description implies a standard operational procedure without highlighting any particular expertise or challenges overcome in these areas.

EDUCATION

TRISAKTI UNIVERSITY

Undergraduate of Informatics Engineer Bachelor,
Honors: cum laude (GPA: 3.14/4.0)

Jakarta, Indonesia

August 2022-Present

TELKOM JAKARTA VOCATIONAL SCHOOL
